## SIMUNITION® SCENARIO INSTRUCTOR & SAFETY MONITOR CERTIFICATION

Committed to the safety of students using their products and system, Simunition® has developed, along with FX® Marking Cartridges, a complete line of protective equipment and conversion kits. Our concern for safety has led us to include supervisor-level training in the safe and effective staging of reality-based scenarios using FX® technology. The training also includes supervisor updates and recertification schools.

This informative, three-day (24-hour) course is designed to provide students with substantial hands-on experience with Simunition® FX® training ammunition technology, weapons conversion kits, and the Simunition® line of protective equipment. Additionally, this course will provide in-depth, hands-on instruction in scenario-based training program development and training methodology. It will present practical experience to students on the best use of Simunition® training products in a highly-effective, realistic, extremely safe training program.

In the Simunition® FX® Scenario Instructor and Safety Certification Course, the goal is to train as close as possible to reality. Students should bring to the course all of the duty operational equipment which he or she would normally wear; this should include a **duty-belt or other personal tactical equipment including tac-lights, hand-cuffs/keys** and appropriate footwear. Live OC and impact weapons are not needed. Students should also bring athletic and seasonal outdoor clothing, wrap around **ANSI-approved eye protection on the first day, outer garment for role playing, Nomex or other type of protective gloves, a cap or hat, notebook and pen. Athletic-cup style groin protection is mandatory.**

### SETCAN ROLE PLAYER CERTIFICATION

Effective role players are the most important ingredient to dynamic scenario training. The Setcan Role Player Course will teach you how to outfit, train and manage your pool of role players. Role players are taught how to display all levels of resistance, which can be difficult when completely suited with protective equipment. Role players are taught how to understand hand signals given by the OIC to adapt the scenario when required. Training your role players will take your dynamic scenarios to the next level!

### SHOCKNIFE ONLINE SAFETY MONITOR CERTIFICATION

Shocknife requires that anyone utilizing Shocknife products to train their students be certified as a Safety Monitor. This e-learning course takes between 2 - 3 hours to complete, and educates Instructors on how to ensure their students use Shocknife products in the safest manner possible regardless of what style of training they use.

The course will cover the following topics:

- Introduction to Shocknife
- Safe Stimulus Response Training
- Safe Dynamic Training
- Mandatory Safety Equipment
- Understanding Electricity
- Stress Exposure Training
- Nomenclature of Shocknife
- Stress Inoculation Training
- Safe Static Skills Training
